

Thermo-Trap®

Heat Absorbing Gel

NEW

The #1 Name in Heat Sink

Solder, Braze or Weld Without Damaging Nearby Sensitive Controls Gaskets, Fittings or Other Equipment.

- Adheres to all surfaces
- Will not melt or run
- Cleans up easily
- Will not stain work surfaces
- Harmless to skin and clothing
- Odorless
- 100% Biodegradable

Thermo-Trap Gel is a heat sink that has an extremely high capacity for absorbing heat. Applied to the metal working surface between the area to be heated and the material to be protected, Thermo-Trap Gel absorbs the heat, preventing heat transfer. This keeps heat from spreading beyond the work area, protecting components, installed fittings and other sensitive parts safe from damage.

Use Thermo-Trap Gel to:

- Apply to copper, steel or other pipe surfaces before welding, brazing or soldering to protect nearby sensitive controls or components.
- Protect adjacent surface areas from over-heating or damage prior to welding, brazing or soldering.
- Cool down heated surfaces.
- Prevent fires in adjacent areas when welding, brazing or soldering.

Packaging: 4 fl. oz. Spray Bottle,
Part Number 4371-53

Packaging: 32 fl. oz. Spray Bottle,
Part Number 4371-32
