

## Evergreen Motors

- ECM motor converts 115/230VAC to DC voltage for better energy efficiency.
- 4 speeds plus a 600 RPM constant fan.
- Dual auto rotation. Determines on start up if CW or CCW is the correct rotation.
- ECM technology allows the Evergreen to remain efficient at all speeds.
- At 600 RPM it is up to 10db quieter than standard motors.
- Can save up to \$300 a year in energy.
- Run 24/7 to reduce temperature stratification
- Run 24/7 to help increase the IAQ equipment efficiency.
- Model 06005 handles 1/5, 1/4, 1/3, 1/2 HP
- Model 06010 handles 3/4, 1 HP
- Replaces PSC motors with ECM technology
- 2 Year warranty

[www.EvergreenMotor.com](http://www.EvergreenMotor.com) for Homeowners

Not for twinned or communicating systems.  
 Not for OEM ECM replacement.

AVERAGE ANNUAL ENERGY SAVINGS	
Heat and Cool Operation	up to \$60 at 10¢/kWh*
Constant Fan Operation	up to \$268 at 10¢/kWh*

EACH EVERGREEN MOTOR IS ESTIMATED OVER ITS LIFE TO SAVE:	
• 12.5 tons of CO <sup>2</sup> emissions, or	
• 3.1 acres of trees, or	
• 2.2 years of auto emissions
